

PHILIPPINE NUCLEAR RESEARCH INSTITUTE

PNRI Customer/Client Satisfaction Survey Report for C.Y. 2022

I. Introduction

The PNRI Customer/Client Satisfaction Survey (CCSS) Form is a measuring tool developed to quantify customers' perception and quality outlook on the different services offered by the Philippine Nuclear Research Institute both internally and externally. It is grounded on eight (8) service quality dimensions as revised effective July 1, 2022, namely: (1) *Responsiveness* (Delivery of prompt service or within the prescribed/agreed time); (2) *Reliability (Quality)* (Service or product conforms to the set requirement); (3) *Access & Facilities* (Condition of facility; Availability of equipment); (4) *Communication* (Staff is polite while delivering the service); (5) *Costs* (Value for money, preferred methods of payment, timely billing); (6) *Integrity* (There is honesty, fairness, and trust in each service); (7) *Assurance* (Able to perform the service correctly; provides right solution or advice to the problem or concern); and (8) *Outcome* (Realization of the intended benefits). This annual report is a consolidation of all CCSS conducted by the different sections of the organization with their respective services for the calendar year 2022 (C.Y. 2022).

II. Methodology

The PNRI CCSS Form (Annex A) is given to all external and internal customers every after completion of the service/s availed. A sample copy of the form is attached. For the Nuclear Training Center (NTC) (Annex B and C), a separate customer satisfaction form is administered tailored fit for the kind of services they offer. Sample copies of the forms are attached as annexes in this report.

The survey respondents were composed of licensees, stakeholders, and other interested parties using and intended to use radioactive materials and/or avail other technical and non-technical services of PNRI (considered as external clients) as well as interested parties within the organization (internal clients). Weighted average is used in the analysis of the survey with the number of respondents considered as the weights.

The survey uses a 5-point Likert scale and follows the rating system below:

Range	Descriptive Rating
5.00	Outstanding
4.00 – 4.99	Very Satisfactory
3.00 - 3.99	Satisfactory
2.00 - 2.99	Unsatisfactory
1.00 – 1.99	Poor

III. Results and Discussion

Here, we detail and discuss the results for C.Y 2022's customer satisfaction survey. Table 1 shows the survey result of all external services in PNRI. There was a total of 1,665 respondents for the survey. They were primarily composed of private and public hospitals, companies, licensees, other government institutions, students, and the like. 32 external services across 16 service providing sections were tallied. Of the 16 sections, the Radiation Protection Services Section (RPSS) had the greatest number of external services at 5 of 6 services with a reported CCSS for 2022. For services that had more than 100 respondents, the top three services with the highest average rating were the Electron Beam Irradiation Services (5.00 with 102 respondents), GAMMA Irradiation Services (Self-Shielded Irradiator: Gamma-220/Ob-servo Sanguis) (4.96 with 220 respondents), and the Guided Tour of PNRI Facilities (4.93 with 142 respondents). The general average per quarter for the external services are as follows: 4.76 for Quarter 1 (Q1), 4.85 for Quarter 2 (Q2), 4.92 for Quarter 3 (Q3), and 4.90 for Quarter 4 (Q4). The general average for C.Y. 2022 of all external services is 4.86.

Table 2 summarizes the result of the CCSS for all internal services. 12 sections delivered a CCSS report for C.Y. 2022. Overall, internal services gained a 4.85 average, with the following distribution per quarter: 4.84 for Q1, 4.83 for Q2, 4.89 for Q3, and 4.84 for Q4. A total of 1,877 respondents were recorded. The top three sections with the highest averages (with more than 100 respondents) were the Human Resources Management, Records and Communication Section (4.88 with 509 respondents), Management Information System Section (4.87 with 480 respondents), and Property and Procurement Section (4.85 with 151 respondents).

On the other hand, Table 3 tallies the CCSS result for the Nuclear Training Center which use their own Customer Satisfaction Survey Forms tailored to the kind of services they offer. Copies of such forms are attached as annexes (Annex B to C) of this report for reference. NTC had an average of 4.59 for C.Y. 2022 which is distributed quarterly as 4.63 for Q1, 4.46 for Q2, 4.70 for Q3, and 4.60 for Q4. These data came from 594 respondents, all were external clients.

Figure 1 is a distribution of all external respondents across different external services. The Nuclear Training Center services recorded the most number of respondents at 679 or 30%, followed by the GAMMA Irradiation Services (Self-Shielded Irradiator: Gamma-220 / Observo Sanguis) service of the Irradiation Services Section (ISS) at 220 or 10% of the total number of respondents, and the Radiometric and Chemical Analysis (Sample Receiving and Releasing of Results) at 183 or 8%. Overall, there were 2,259 external respondents recorded for 2022.

Figure 2 is a visual representation of the distribution of internal respondents. A total of 1,877 internal respondents were recorded. The top three sections with the most number of respondents came from the Human Resources Management, Records and Communication Section, with 509 or 27% of the total population, followed by the Management Information System Section, with 480 or 26%, and the General Services Section, with 240 or 13%.

Figure 1. External Respondents Distribution

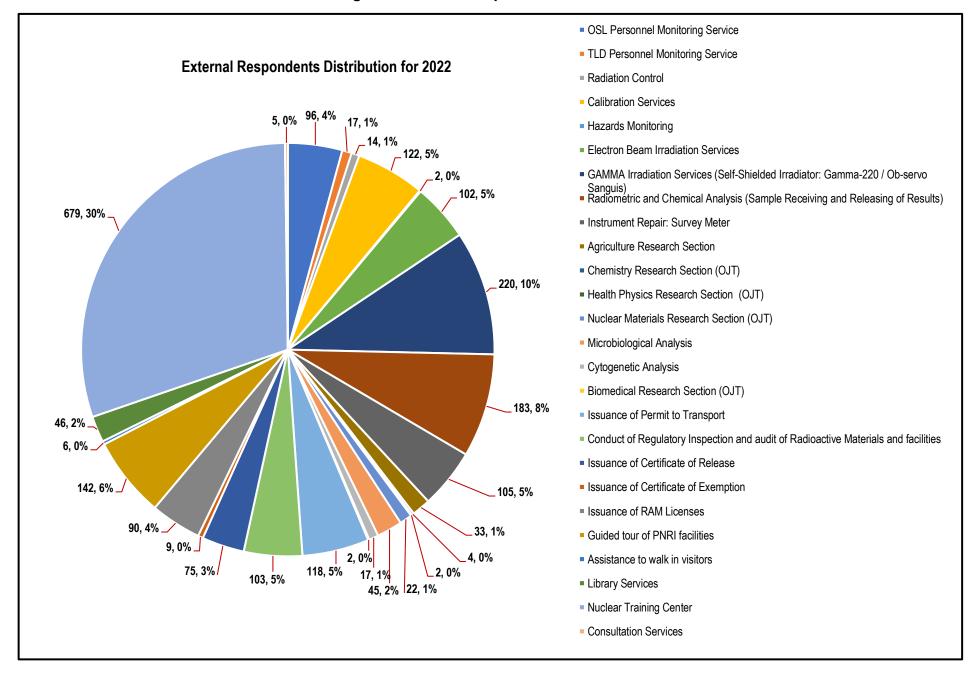

Figure 2. Internal Respondents Distribution

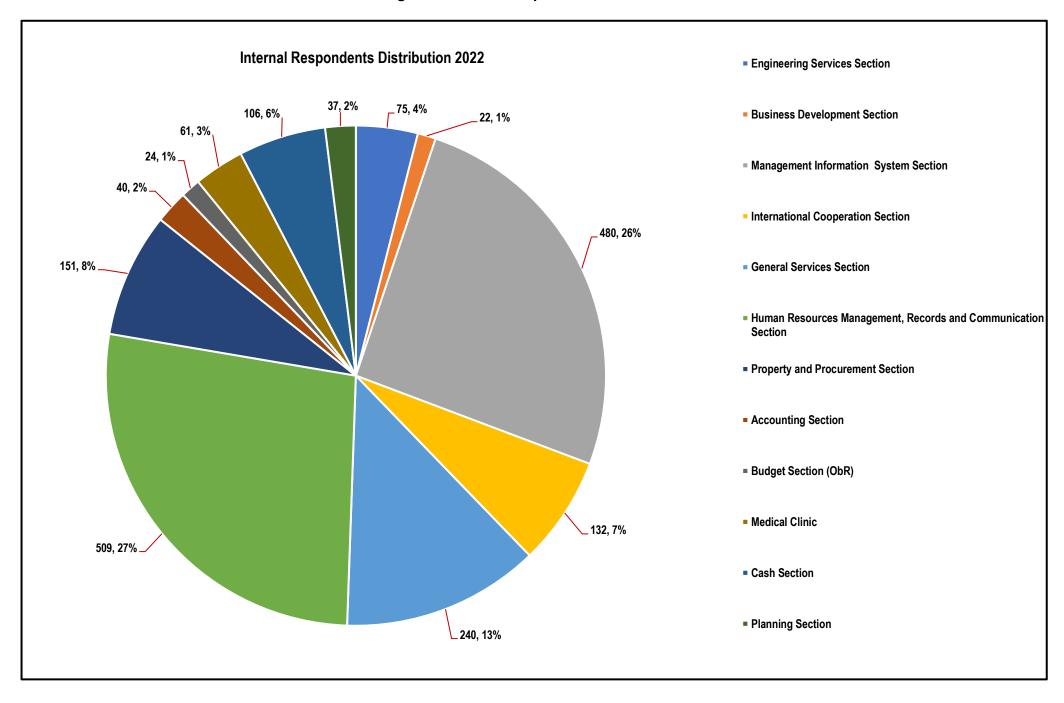

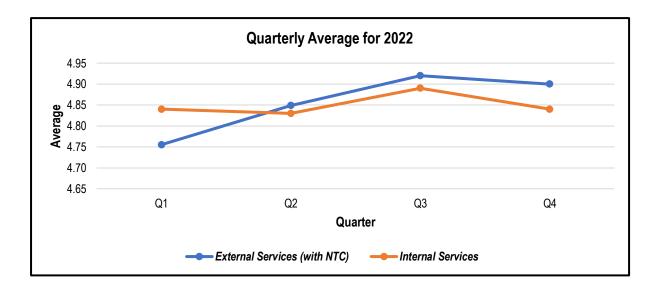

Table 4 shows the summary of result for C.Y. 2022. Overall, PNRI recorded a 4.82 satisfaction rating for the year which is equivalent to a Very Satisfactory (VS) rating. The data is taken from a total of 4,136 respondents. For the quarterly average, Figure 3 details the information. For C.Y. 2022, the quarterly average is 4.80 for Q1, 4.84 for Q2, 4.91 for Q3, and 4.87 for Q4. Both services had an increasing trend from Q1 to Q2 with Q3 recording the highest average for both external and internal service.

Table 4. Summary of Result

Type of Service	Q1	Q2	Q3	Q4	General Average	Total Number of Respondents
External Services (with NTC)	4.76	4.85	4.92	4.90	4.78	2259
Internal Services	4.84	4.83	4.89	4.84	4.85	1877
General Average	4.80	4.84	4.91	4.87	4.82	4136

Figure 3. Quarterly Average for 2022

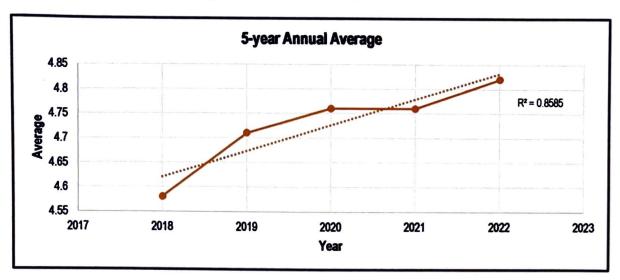

In comparison with the ratings from the past years, Table 5 shows the yearly average from 2018 to 2022. From the table, 2022 recorded the highest annual customer satisfaction rating at 4.82 and 2018 with the lowest at 4.58. There is also an increasing trend in customer satisfaction from 2018 up to 2022 as seen in Figure 4. This is an indication that the organization is continually improving in its delivery of the different services with a more positive outlook from its customers. These data also shows the organization's commitment to always deliver its best quality services in line with its Quality Objectives.

Table 5. 5-year Annual Average

Year	Average
2018	4.58
2019	4.71
2020	4.76
2021	4.76
2022	4.82

Figure 4. Annual Average for 2018-2022

IV. Summary

PNRI received a "Very Satisfactory" rating of 4.82 for the C.Y. 2022. This result is well within the Quality Objective of the organization. The average per quarter are as follows: 4.80 for Q1, 4.84 for Q2, 4.91 for Q3, and 4.87 for Q4. These data were taken from a total of 4,136 respondents, distributed as 2,259 for external services and 1,877 for internal services.

There is an upward trend of customer satisfaction rating from 2018 to 2022 with the current calendar year recording the highest average and 2018 with the lowest at 4.58.

PNRI is steadfast in its commitment to provide quality to all clients and customers. The result of this survey shall be a benchmark in developing and creating more dynamic and innovative action plans towards the continuous improvement of the Quality Management System and the organization.
