## Overview

For the calendar year 2023, the Philippine Nuclear Research Institute achieved an overall score of 99.31%. Indicated in Table 1 are other ARTA metrics with the following internal and external component. This is computed based on the 4,130 respondents from both internal and external services.

## Scope

Response Rate<sup>2</sup>

Overall Score

This customer satisfaction measurement report covers all the survey for the calendar year 2023. This report will be divided into two sections – internal and external services. External services refer to the services rendered to customer outside the organization. On contrary, internal services are services availed by personnel within the organization.

The Philippine Nuclear Research Institute is located at Commonwealth Avenue, Diliman, Quezon City. It does not have any regional or satellite office; hence, transactions for external services are usually conducted in the Interim PNRI One-Stop-Shop (iPOSSH). Prior to the arrival in PNRI, clients can submit application online. It is important to note that different service providing units have different online process indicated in the Citizen's Charter. All the surveys on this report are either from physical survey form that the customer submitted or from online survey form. The data for this report came from different service providing unit of PNRI.

Table 2 shows the external services and their corresponding response rate. The minimum number of respondents (column 6) is calculated based on the CSM Sample Size Calculator<sup>3</sup> indicated in the ARTA MC 2022-05 section 4.3.3 with 5% margin of error (95% confidence interval). Notice that for some services the total number of transactions was not submitted – hence, a blank cell.

Some services, albeit not included in the Citizen's Charter, were rendered. Internal and external clients were given CSM form to evaluate the provided service. These services are also included in Table 2 and 3. It is worth noting that some services in Table 3 were left blank. These services do not have any CSM survey due to the fact that they are being performed by multiple sections and are already part of their existing function. This raises the question that if a CSM form is to be given to the end user, which section is being evaluated? This will be addressed by the management. Nonetheless, these services are part of the Citizen's Charter and will be include in this report as empty cells.

<sup>&</sup>lt;sup>1</sup> The Citizen's Charter Awareness, Visibility, and Helpfulness were not yet included in the CSM form for the year 2023. Due to this, the mentioned metrics were not applicable in this report. Further details are provided in the Result and Discussion section.

<sup>&</sup>lt;sup>2</sup> Some service providing unit was not able to provide the total number of transactions for the calendar year 2023. The overall response rate indicated in Table 1 were taken from the services in the Citizen's Charter (including the Services that are not in the CC) with provided total number of transactions and number of respondents. These are the services in Table 2 and Table 3 with response rate.

<sup>&</sup>lt;sup>3</sup> The sample size calculator provided by ARTA at <a href="https://tinyurl.com/CSMsamplesize">https://tinyurl.com/CSMsamplesize</a> needed the total number of transactions to get the minimum number of respondents. Therefore, services with no total number of transactions in Table 2 were left blank.

Table 2: External Services with its corresponding Response Rate

Unit	No.	External Service	Total Transaction	No. of Respondents	Min. No. of Respondents	Response Rate
	4 4	Issuance of New/Amendment of Radioactive Material License		040

#### Notes:

- \* These services are carried by multiple sections. On some occasions, the end user becomes part of the process. Hence, it is not clear whether a customer satisfaction survey should be given to the end user. This raises many questions such as: "If a CSM form will be given, which unit will be evaluated?", "If this process is already part of the function of a specific unit, should this really be included in the Citizen's Charter?". This concern will be raised to the Committee on Anti-Red Tape of PNRI.
- \*\* These services are listed separately in the Citizen's Charter, but the record is combined with the other service/s
- † In the Citizen's Charter, this is listed as one of the services provided by GSS. However, this is requested in HRMRCS.
- the Some of the services not included in the Citizen's Charter are accumulation of other services that may range from personal request to other unit specific function. As such, this service will be indicated as Other Internal Service/Request

Table 4: Services with no rendered service for the calendar year 2023

Eight (8) services did not have CCSS report for the year 2023. For the two external services, this is mostly due to no service was rendered for this year. On the other hand, there were two internal services with no provided data. The reasons for the remaining internal services are indicated in the third column.

Service Provider	Service Delivered	Remarks
	EXTERNAL	
ITS	Column Scanning Services	No service rendered
NIDS	Nuclear Awareness Seminar and exhibit	No seminar and exhibit conducted
	INTERNAL	
	Processing of Purchase Request	These services are carried by multiple sections and are also part of their existing function. On some occasions,
PPS, AS, BS	Processing and Approval of Purchase Order (PO) and Job Order	certain process requires the involvement of the end user. A single section cannot give out a survey since they are not being evaluated for the
	Processing of Payment for Purchase Orders (PO), Job Orders (JO) and Contracts	whole process. This matter will be raised to the QMR and CART Chair to reconcile the problems arising from this.
CS	Collection of Payments and Deposits for Various PNRI Services thru the e-Payment System	No data regarding this service was submitted
03	Disbursement of Checks/ADA Preparation	This is already part of the Cash Section's existing function.
GSS	Request for Equipment/Materials Brought In/Out to PNRI	No data regarding this service was submitted

## Methodology

After a service is rendered, a CSM<sup>4</sup> form is given to all external and internal customers. For the year 2023, PNRI used two versions of the CSM form. Attached on this report (Annex A) is the PNRI-CSM-01 Rev. 04 that was effectively implemented on 01 July 2022. This was later revised to Revision 05 (Annex B) on 01 October 2023, with the main difference of having different adjectival description on the Likert Scale. During the 2023 PNRI Internal Quality Audit, it was observed that the description on Rev. 4 does not match the adjectival rating in the Procedure's Manual, prompting the revision. Nonetheless, both forms used the 5-point Likert scale. Table 5 shows the adjectival description of the scale.

Table 5: Adjectival description on the Likert scale

Scale	Adjectival Rating									
Scale	PNRI-CSM-01 Rev. 04	PNRI-CSM-01 Rev. 05								
5	Strongly Agree	Outstanding								
4	Agree	Very Satisfactory								
3	Neither Agree nor Disagree	Satisfactory								
2	Disagree	Fair								
1	Strongly Disagree	Poor								

For the Nuclear Training Center (NTC), a separate customer satisfaction form (Annex C and D) is administered tailored fit for the kind of services they offer. Sample copies of the forms are attached as annexes in this report.

<sup>&</sup>lt;sup>4</sup> The PNRI Customer Satisfaction Form is also called CCSS form- Customer/Client Satisfaction Survey Form - indicated in the PNRI Procedure's Manual PM-PNRI-09-01. The term might be used interchangeably in this report.

The PNRI-CSM-01 Form is divided into two parts, namely the Customer/Client Profile and the Customer/Client Satisfaction Survey. The Customer/Client Profile section of the survey gathers data regarding the general profile of the client which includes their name, age, sex, contact number, address, the type of customer/client, the name of their company/organization, and the specific PNRI service they have availed with which they are giving the rating to. On the other hand, the Customer/Client Satisfaction Survey section details the eight service quality dimensions mentioned above that the customers/clients must rate using a 5-point Likert scale.

For the quarterly report (2023), the weighted average is used in the analysis of the survey with number of respondents in each respective service as weights. In this report, however, a different metric will be used that is in line with ARTA's annual CSM report guideline. The formula provided below will be used as a metric on this report.

$$S = \frac{N_{SA} + N_A}{N_T - N_{NA}}$$

where:

 $N_{SA}$  - the number of respondents who answered "Strongly Agree"

 $N_A$  - the number of respondents who answered "Agree"

 $N_T$  - the total number of respondents

 $N_{\it NA}$  - the number of respondents who answered "Not Applicable"

The score will be interpreted as follows in accordance to ARTA MC 2023-05 Section 3.2. The general objective of the organization is to achieve an overall rating of **Very Satisfactory**.

**Table 6:** Interpretation of the overall score.

Percentage	Rating
Below 60%	Poor
60.0% - 79.9%	Fair
80.0% - 89.9%	Satisfactory
90.0% - 94.9%	Very Satisfactory
95.0% - 100%	Outstanding

## Data & Interpretation

#### On Client Demographic:

Respondents were primarily composed of private and public hospitals, companies, licensees, other government institutions, students, industries, private companies, and individuals and the like.

The tables in the Annex B CSM Report Outline of ARTA MC 2023-05 under this section were not available. It is worth noting, however, that this is the first time that the agency has changed its CSM report format. Given the data provided by the process owners, the client demographic cannot be formulated. The agency is committed to comply in all ARTA requirements; and to this effort, changes on the data collection will be implemented on the following year to remediate this concern.

#### **On Citizen's Awareness Questions:**

The PNRI-CSM-01 Rev. 4 and Rev 5 does not contain Citizen's Charter questions. Efforts have been made to make sure that the CSM form contains all required elements. Effective 01 April 2024, a new revised form was implemented. Kindly refer to Annex E – revision 6 of the CSM form.

#### **On Service Quality Dimension:**

The Overall Satisfaction (internal and external) for all services rendered for the calendar year is not applicable on this report. The CCSS form that was used in 2023, Rev. 4 and 5, does not contain SQD0. The revised version on April 01, 2024 remediates this concern. Kindly refer to Annex E.

Table 7: Overall Satisfaction

	Agree Agree Disagr		Neither Agree nor Disagree	Disagree	Strongly Disagree	N/A	Total Responses	Overall
Overall Satisfaction (SQD0)	NA	NA	NA	NA	NA	NA	NA	NA

Table 8 shows the result of the internal and external service quality dimension. PNRI attained a score of 99.08% for the external service rendered during the calendar year 2023. This is computed based on the 2,595 surveys from external customers/client. On the other hand, PNRI also served its internal customers and for this year the agency received 1,535 respondents. The overall score for internal service is 99.73%. Both of which attained an Outstanding rating which is within the PNRI quality objective.

Table 8: Service Quality Dimension of Internal and External Survey

		Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree	N/A	Total Responses	Overall
	Responsiveness	2,309	258	19	6	2	1	2,595	98.96%
	Reliability	2,273	304	13	2	2	1	2,595	99.34%
	Access & Facilities	1,966	293	23	2	3	308	2,595	98.78%
lal	Communication	2,341	234	14	1	2	3	2,595	99.34%
External	Cost	2,151	366	48	2	2	26	2,595	97.98%
EX	Integrity	2,339	243	7	1	2	3	2,595	99.61%
	Assurance	2,325	248	15	2	3	2	2,595	99.23%
	Outcome	2,303	270	12	2	3	5	2,595	99.34%
B	Overall	18,007	2,216	151	18	19	349	20,760	99.08%
	Responsiveness	1,411	117	3	1	1	2	1,535	99.67%
	Reliability	1,396	131	3	0	1	4	1,535	99.74%
	Access & Facilities	1,369	130	4	0	0	32	1,535	99.73%
al	Communication	1,416	108	5	0	1	5	1,535	99.61%
Internal	Cost	676	80	2	0	1	776	1,535	99.60%
ᆵ	Integrity	1,430	95	1	0	1	8	1,535	99.87%
	Assurance	1,423	105	3	0	1	3	1,535	99.74%
	Outcome	1,426	100	2	0	1	6	1,535	99.80%
	Overall	10,547	866	23	1	7	836	12,280	99.73%

Combining both surveys together, we can get the overall score of the agency. PNRI attained an overall score of 99.31%. Kindly refer to Table 9 for a more detailed result on each service quality dimension. It is noticeable that two quality dimensions, Access & Facilities and Costs, have the highest "not applicable" answers. For the former, a large portion of this came from Inspection and Enforcement Section. Most, if not all, of their conduct of inspection does not occur within the PNRI premises – hence, the relatively large number of NA answers. On the other hand, for Cost, this is mainly from internal services which does not have any fee.

Table 9: Overall Service (Internal and External) Quality Dimension

	Strongly Agree	Agree	Neither Agree nor Disagree	Disagree	Strongly Disagree	N/A	Total Responses	Overall
Responsiveness	3,720	375	22	7	3	3	4,130	99.22%
Reliability	3,669	435	16	2	3	5	4,130	99.49%
Access & Facilities	3,335	423	27	2	3	340	4,130	99.16%
Communication	3,757	342	19	1	3	8	4,130	99.44%
Cost	2,827	446	50	2	3	802	4,130	98.35%
Integrity	3,769	338	8	1	3	11	4,130	99.71%
Assurance	3,748	353	18	2	4	5	4,130	99.42%
Outcome	3,729	370	14	2	4	11	4,130	99.51%
Overall	28,554	3,082	174	19	26	1,185	33,040	99.31%

#### On Overall Score per Service:

Kindly refer to Table 10 for a more detailed enumeration of the overall score of external services. Out of the 28 highlighted service, 4 services did not have any CCSS report. Column scanning and nuclear awareness seminar and exhibit does not have any rendered service for the calendar year 2023. However, for the other two services under the RPSS, the clients are mostly internal. Out of all the services, Guided tour in PNRI facilities has the highest number of respondents. This is mostly attributed to the lifting of the pandemic related restrictions which allows interested person/party to visit the facility. This is followed by NTC external surveys with 253 respondents and ISS Gamma Irradiation Services (Self-Shielded Irradiator) with 242 respondents.

All external services got an Outstanding rating with thirteen (13) services attained a perfect score of 100%. However, looking at the overall score of the service quality dimension, it is evident that Cost got the lowest rating. This is well within the organization's expectations as cost is one of the factors that a customer typically looks for in availing services.

Refer to Table 11 for a more detailed enumeration on the overall score of internal services. The top 3 sections with the highest number of internal respondents are the following – Management Information System Section (MISS), Human Resources (HRMRCS), and Property and Procurement Section (PPS). Given the volume of the surveys that are coming from these sections, it only goes to show how crucial their functions are; and therefore, hold a large influence in the organization's overall score.

In addition, it is very noticeable that a relatively large number of services contains "NA" on the overall score since there is no survey. These services are part of the existing function of the office and are already being done even if there is no client. As stated in the previous section of this report, this will be raised to the management, CART and Top management, to address this concern.

Overall, all services rendered by the agency attained an Outstanding rating. This is somewhat different from the previous CSM report of the agency using the weighted average as metric. Most of the time, PNRI attained a Very Satisfactory rating in most services. In general, an Outstanding rating only shows in services with low number of respondents. Due to the nature of the new metric and the table used in the interpretation (Table 6), the overall score of the PNRI appears higher than the previous score. The metric calculates the ratio of the promoter score (Agree and Strongly Agree) and the number of respondents excluding the "N/A" answers. This leads us to some deduction. First, is that when a service providing unit only gets a score of 4 and 5, the overall score is automatically 100%; and therefore, the unit gets an Outstanding rating. Even if there is a score of 3 (neither agree nor disagree), the unit can still attain an Outstanding rating because it is within the 95% - 100% range.

## Table 10: Overall Score for External Services

For the calendar year 2023, PNRI received **2,595** respondents for rendered external services. This includes survey from services not included in the PNRI Citizen's Charter. All figures shown in the table are percentage based on the overall score formula provided by ARTA (kindly refer to the Methodology section). Note that the percentage sign is not shown to conserve width spacing.

Service Provider	No.	Service Delivered	Responsiveness	Reliability (Quality)	Access & Facilities	Communication	Costs	Integrity	Assurance	Outcome	Average	Remark	No. of Respondents

#### Notes:

The score on each service is computed based on the metric provided by ARTA in MC 2022-05 under section 4.5.2 which specifically said, "the percentage of the respondents that rated Agree and Strongly Agree shall be used to get each SQD score". This is also indicated in the Annex B Sample CSM Report Outline and Sample Report version 2.

- \* On-The-Job Training (OJT) and Thesis/Research Advisorship are considered external services since the students are considered external customer/clients.
- † The overall score per Service Quality Dimension is the same as in Table 8

## Table 11: Overall Score for Internal Services

PNRI received a total of **1,535** responses from internal services rendered on the year 2023. The scores in the table are percentage based on the same metric in the Methodology Section. Just like Table 10, the percentage sign is omitted to conserve width spacing of the table.

Service Provider	No.	Service Delivered	Responsiveness	Reliability (Quality)	Access & Facilities	Communication	Costs	Integrity	Assurance	Outcome	Average	Remarks	No. of Respondents

AS		Other Internal Service/Request	100	100	100	100	100	100	100	100	100	0	40
Overall	Score pe	r Dimension (CC with Other Internal)	99.67	99.74	99.73	99.61	99.60	99.87	99.74	99.80	99.73	0	1,535

It is important to note that getting the highest rating is very difficult on the previous metric as you need a weighted average of 5.0. This means that all scores should be 5 to get an Outstanding rating. As a result, the CSM report using the new metric would appear higher than the previous. However, this is attributed mostly due to the change of the metric. It appears to be too lenient on giving an Outstanding rating which makes it difficult to see future improvement on the provided services.

If we use the same metric, we can see the improvement of PNRI from the previous year 2022. We attained an overall score of 4.84 for the calendar year 2023. For reference, the 2022 CSM overall score is 4.82.

## Continuous Agency Improvement Plan

PNRI is an agency committed to improving the services it offers to the public. It is therefore imperative that the agency is on continuous look out for things to enhance. The following will be given focus for improvement:

#### On Drafting of CSM Report:

This is the first year that the agency drafted the CSM report in accordance with the template provided by ARTA. Drafting the report, we were able to see some things that need improvement:

- Meticulous tracking of the total number of services rendered for external and internal services to check the response rate.
- 2. Due to a different scoring metric, calculating the overall score is somewhat challenging. To prevent any error in computation, an automatic software CCSS calculator will be developed.
- 3. Inclusion of the Citizen's Charter and improved demographic analysis in the succeeding annual report.

#### **On Customer Transactions:**

- Update of the information billboard on the Interim One-Stop-Shop
- 2. A procedure on filling customer complaints and establishment of Public Assistance and Complaint Desk (PACD).

Prepared by:

VALLERIE ANN I. SAMSON, Ph.D.

Deputy Director / Quality Management Representative

Noted by:

CARLO A. ARCILLA, Ph.D.

Director, PNRI
